

Ikuro Abe received his B.S. (1984) and Ph.D. (1989) from The University of Tokyo. After two years postdoctoral research with Professor Guy Ourisson at the CNRS Institut de Chimie des Substances Naturelles, and mostly with Professor Michel Rohmer at the Ecole Nationale Supérieure de Chimie de Mulhouse (1989-1991), he moved to the USA to work with Professor Glenn D. Prestwich at the State University of New York at Stony Brook (1991-1996) and then at the University of Utah (1996-1998). He returned to Japan to join the faculty at the School of Pharmaceutical Sciences, University of Shizuoka (1998-2009), and is currently Professor at the Graduate School of Pharmaceutical Sciences, The University of Tokyo (2009-). His research interests mostly focus on exploring and engineering the natural products biosynthesis.
